CAREER OBJECTIVE

3rd-year Computer Science Engineering student with experience in full-stack development, cloud computing, and cybersecurity. Built scalable web applications and AI-powered systems through internships and academic projects using React, FastAPI, Azure, and machine learning technologies. Seeking software engineering, cybersecurity, or data-focused opportunities to contribute technical expertise and problem-solving skills.

EDUCATION

B.Tech in CSE, Srinivas University — Srinivas Institute of Technology, Mangalore	Sep 2023 – Apr 2027 CGPA: 8.4/10
12th PUC, Dept. of Pre-University Education — Janatha Independent PU College, Hemmady	2021–2023 81%
10th SSLC, CBSE — Saint Thomas Higher Primary School, Byndoor	2020–2021 85%

TECHNICAL SKILLS

Languages: Python (Primary), C, C++

Web & Frameworks: React.js, Node.js, Django, FastAPI, HTML, CSS, JavaScript

Databases: PostgreSQL (Supabase), MongoDB, SQLite

AI/ML & Data Science: PyTorch, XGBoost, CodeBERT, LSTM, Graph Neural Networks (GNN), AST Parsing

Cloud & Tools: Microsoft Azure, REST APIs, WebSocket, Redis, Git, GitHub, Linux, VS Code

INTERNSHIP EXPERIENCE

Student Intern | Infosys Springboard

Nov 2025 – Jan 2026

- Developed a Real-Time Vessel Management and Tracking System using Django, Redis, WebSockets, and React.js for live vessel monitoring, port analytics, and interactive map-based visualization.
- Implemented JWT authentication, Role-Based Access Control (RBAC), and real-time data streaming to enable secure multi-user access, efficient data processing, and analytics dashboards.

Emerging Technologies Intern | Microsoft Elevate Program (Azure)

Dec 2025 – Jan 2026

- Designed and deployed cloud-based application architectures on Microsoft Azure, focusing on scalability and security best practices.
- Applied Azure compute, storage, and networking services to build efficient, production-ready system architectures.

ACADEMIC PROJECTS

[AI-Powered Autonomous Code Review & Bug Prediction System](#)

May 2026 – June 2026

- Developed an AI-powered code review platform using FastAPI, CodeBERT, XGBoost, GNN, LSTM, AST Parsing and GitHub API for automated bug detection and code quality analysis.
- Achieved 53.0% F1-score and 57.6% precision on the CodeXGLUE Defect Detection benchmark.

[Quality Education Quiz App](#)

Nov 2025 – Jan 2026

- Full-stack quiz system using React, FastAPI, and Supabase with dynamic question fetching, real-time score tracking, and backend validation.
- Designed state management architecture supporting concurrent quiz sessions with zero data loss on session transitions.

CERTIFICATIONS & ACHIEVEMENTS

- Google Data Analytics — Coursera (2025)
- RDBMS — IBM (2024)
- Introduction to Cybersecurity — Cisco (2025)
- Cybersecurity Virtual Experience — Deloitte via Forage (2025)
- Technology Consulting Virtual Experience — TATA via Forage (2025)
- GDG Solution Challenge Participant-Google Developer Groups & Hack2skill (2025)

LANGUAGES & INTERESTS

Languages: English (Fluent), Kannada (Native), Hindi (Conversational), Tamil (Conversational)

Interests: Technology Reading, Non-fiction, Creative Writing
